

Job Title: Finance Business Partner

Location: Abingdon, Oxfordshire

Department: Finance Team

Background

Conrad Energy is a rapidly growing Independent Power Producer (IPP) focused on meeting the growing demand for balancing services in the UK electricity market. With a highly experienced management team Conrad Energy expect to grow and diversify to provide over 1GW of flexible power to the National Grid over the next few years.

To support this exciting time in the business we are seeking a passionate and positive person who can work well in a busy environment and can challenge the status quo. We are looking for someone who is looking to develop and grow their skills while contributing to the success of the company.

This newly created role will primarily support the Development and Construction teams through business partnering and will be a key member of the Financial Analysis and Planning team.

Main Task and Responsibilities

- Support Development and Construction Managers to develop accurate and timely capex budgets
- Provide analysis on all ongoing projects, tracking performance against budget and provide rolling forecasts
- Support project valuations, ensuring robust project reviews and produce NPT/IRR and cashflow analysis, responsible for ensuring project accounting principles followed
- Gain an understanding, and eventually lead on, the portfolio of construction activity across the Group and the impact on the Groups cash position, debt requirements, equity requirements and growth plans
- Provide meaningful analysis and information to the Board on a regular basis
- Review and improve processes across the Finance team and implement robust processes for project budgeting, forecasting, and tracking incurred spend
- Be the Finance teams representative to both the Development and Construction teams
- Be a champion of analysis and insight across the business, building and implementing tools and process as required
- Mentor and develop junior team members

Education and Experience

- Qualified accountant (CIMA, ACA/ACCA, equivalent)
- Experienced with providing project analysis and insight
- Advanced Excel/VBA user, experience with SQL/Python an advantage
- Previously has developed and implemented reporting and financial control processes
- Experience in month-end reporting
- Previous business partnering experience ideal
- Prior experience in debt and/or equity raising desirable

Key Competencies

- A naturally inquisitive mindset, wanting to understand and get to the bottom of any problem
- Strong critical thinking skills, able to asses and implement solutions
- Analytical nature

- Strong team player, keen to get 'stuck in' and work closely with colleagues across the business
- High level of accuracy and attention to detail
- Keenness to learn and develop their skills

Further information

Salary range: £40,000 to £50,000 DOE
